

2016-2017 Skyfactor© Completer Data

In the fall of each year, the Office of Teacher Education sends an alumni survey through the company Skyfactor to all alumni of teacher education programs (graduated 3 or fewer years). The alumni are asked to respond to their evaluation of their teacher preparation on a scale from 1 to 7, with 1 being the lowest. For the last 10 years, U of A Fayetteville has utilized the expertise of Skyfactor to align with standards to provide research-based questions. For the alumni survey, the questions help measure completer satisfaction and degree to which our completers report that they are prepared for the classroom.

How satisfied are you with the...?	Mean Scores	Percentage of Completers Rating Above the Mean on "How Satisfied Are You?" Questions
Quality of student teaching	Mean = 6.09	87%
